Exclusions and limitations

Exclusions apply if the sickness or injury giving rise to the claim is caused by intentional self-inflicted injury or attempted suicide.

Exclusions or limits may apply depending on individual circumstances, which will be notified in writing.

Only sicknesses or injuries that occur after Policy commencement are covered by the Policy.

Class of consumers

The product is designed for Policy Owners or super fund members who need a lump sum benefit of between \$25,000 and \$2.5 million if the Insured Person suffers a sickness or injury and is unlikely to be able to carry out all normal household duties ever again.

Needs, objectives and financial situation

The product provides insurance to cover the following costs and expenses due to the total and permanent disablement of a homemaker:

- personal financial costs (e.g. transportation and accommodation costs, the expense of hiring a housekeeper to perform normal household duties), or
- personal capital requirements (e.g. to allow for home modifications and home care).

Consumers should consider if they have the financial capacity to fund the costs of cover, in accordance with their chosen premium structure, over the period they intend to hold the cover. This includes periods in which financial capacity will change such as, but not limited to, changing employment circumstances, entering retirement or another change in your financial situation. Consumers will be required to form their own assessment of their capacity to fund premiums.

This product is not designed for Policy Owners, Insured Persons and super fund members:

- if, when first taking out cover:
 - the Insured Person is age 60 or over, or
 - the Insured Person is not an Australian citizen, a permanent resident of Australia or holder of an eligible work visa or spouse/partner work visa,
- whose main reason for cover is for a pre-existing condition of the Insured Person, or
- where the Insured Person is not a homemaker or is working in a regular occupation (including part-time and/or voluntary work) for income, or
- who need cover for less than \$25,000, or
- who need cover for more than \$2.5 million, or
- who need cover for an Insured Person age 14 or under, or
- where there is a need for more than five Policy Owners, or
- who need cover for death, terminal illness, trauma insurance or income protection, or
- who need health insurance.

Distribution conditions and restrictions

Distribution channels

This product is designed to be sold via the following means:

- by financial advisers, who hold or operate under an Australian Financial Services Licence (AFSL), or
- by TAL Life.

Distribution conditions and restrictions

This product should only be distributed under the following circumstances:

- the Policy Owner, Insured Person or super fund member meet the relevant eligibility criteria for the product, and
- distribution to new consumers is provided by a financial adviser who is appropriately authorised, trained and qualified to provide financial advice about life insurance products, or
- distribution to consumers other than new consumers is provided by TAL Life through its customer contact centre or a financial adviser who is appropriately authorised, trained and qualified to provide financial advice about life insurance products in the following circumstances:
 - the consumer falls within the target market for this product, and
 - either:
 - the consumer previously held this product, or
 - this product is being acquired to replace a product that the consumer holds which had been issued by TAL Life.

Although the product may be advertised or compared on third party comparison websites, consumers may only make an application for the product to the issuer through a financial adviser or TAL Life as described above.

Appropriateness of distribution conditions and restrictions

The distribution conditions will result in the product being issued to consumers who are likely to be in the target market because:

- The requirement for distributors to determine whether a consumer is eligible for the product and not permit consumers to be issued the product if they do not satisfy the eligibility criteria means the product cannot be issued to consumers who are not eligible for the product; and
- The requirement for distributors to draw the consumer's attention to the key features of the product, including an estimate of the applicable premium (based on the consumer's requested product benefits), is likely to prompt a consumer to either proceed or not to proceed with an application, based on their financial capacity to afford the applicable premiums and determination of whether the product is consistent with their likely objectives, financial situation and needs.
